

GemRack Release Notes - V1.0 Build 1044

The main purpose of this release (on 27-Mar-2020) is to improve the overall program useability and resolve any known bugs.

If you have an active *Support Subscription* we encourage you to install this new release and take advantage of all the latest enhancements and corrections and if you have an expired *Support Subscription* and wish to renew it please contact our office.

This update is available by clicking the pop-up that appears at the bottom of the screen when opening **GemRack** or via the **Menu bar > Help >  Check for Updates** function and following the prompts.

The main changes for this release include:

- resolved an issue related to saving of floor plan and individual run drawings as well 3D View where the file name no longer had a suffix,
- resolved an issue related to refreshing of toolbox panels
- resolved a critical issue related to the printer driver.

New Features

None

Enhanced Features & Corrections

1. Resolved an issue related to saving of floor plan and individual run drawings. Now when saving a floor plan drawing the auto-generated suffix will be – *Floor plan* whereas for individual run drawings the suffix will be – *Drawing*. For 3D View the suffix will be *3D View*.
2. Resolved a client reported issue related to toolbox panel refreshing.
3. Resolved an issue related to printer driver where sometimes following a windows update the printer driver that GemRack uses doesn't initialise properly.

To other release notes refer to [GemRack Version/Updates History](#).
