

## GemRack Release Notes - V1.0 Build 1051

The main purpose of this release (on 19-Nov-2020) is to improve the overall program useability and resolve several bugs.

If you have an active *Support Subscription* we encourage you to install this new release and take advantage of all the latest enhancements and corrections and if you have an expired *Support Subscription* and wish to renew it please contact our office.

This update is available by clicking the pop-up that appears at the bottom of the screen when opening **GemRack** or via the **Menu bar > Help >  Check for Updates** function and following the prompts.

The main changes for this release include:

- finetuned functionality related to diagonal fixtures/walls,
- fixed several bugs related to catalogue feature,
- fixed a bug related to duplication of projects,
- fixed a bug related to saving of beam connector selection to a project,
- fixed a bug related to storage space & pallets count in very large projects,
- finetuned functionality related to the Safety Auditor feature and the SIC's,
- fixed a bug related to cantilever back braces.

## New Features

None

## Enhanced Features & Corrections

1. Finetuned functionality related to adjustment/resizing of diagonal fixtures when used as walls.
2. Fixed several bugs related to the catalogue feature associated with cantilever runs.
3. Fixed a bug that sometimes occurs when duplicating medium to large size projects where back-to-back run linkage sometimes gets corrupted/lost.
4. Fixed a bug related to the selection & saving of beam connector types where the selection sometimes doesn't get saved and subsequently loaded properly.

5. Fixed a bug related to calculation of storage space and the number of pallets, in very large projects.
6. Finetuned functionality related to the Safety Auditor dialog and resolved several bugs with the SIC's (Safety Inspection Codes).
7. Fixed a bug related to cantilever back braces where under certain circumstances a runtime error is raised..
